PERSONAL STATEMENT

I am a creative web designer with vast knowledge of industry standard design software and coding practices. I am able to take a project from start to finish and I'm confident in talking to clients about their projects. Educating myself about new technology is one of my passions and I like to keep up to date with current web standards. Freelance work and self-employment have helped me become highly organized and self-motivated and able to work to tight deadlines.

WORK EXPERIENCE

2010 – PRESENT

Wavelength Design

I am currently employed on a freelance basis as technical director of this small upcoming design company creating websites from scratch, from concept to full site production. As head designer I am responsible for all website production, including ecommerce and CMS website creation.

2008 – 2010

Alternative Boutique

Working as a sole trader running my own business both on and offline. Serving customers, cash handling, managing an online store, producing marketing materials, eBay listing, book keeping and general shop maintenance.
